Computer Aided Testing (CAT) 3.0

CAT is an easy-to-use Windows™ based program that manages your Hearing Loss Prevention Program (HLPP). You can have the software up and running in just a few minutes. CAT makes it easy to perform a test. The software guides you step by step and makes sure you gather all the information you need to have an OSHA compliant HLPP. For more information on the CAT software visit <http://www.tkontheweb.com/cat.htm>

Benefits

- Keeps your HLPP in compliance with OSHA regulations.
- All your HLPP is just a few keystrokes away.
- Reduces data entry errors and improves data quality.
- Protects your workforce against work related hearing loss.
- Results may be Professionally Reviewed Electronically.

Key Features

- Simple Installation.
- Compatible with most audiometers.
- Instant Notification of OSHA STS and Recordable Events.
- Printable STS, Recordable, and No Change Letters.
- Manual entry and editing of tests and demographics.
- Notification of confirming and repealing STS and Recordable events.
- Easy searching capability to find employees who need testing.
- Easy to view Employee Histories.
- Daily Calibration Reminder.
- Many printouts to help you organize your program.
- Can track separate baselines for each ear.
- Entry of medical history based on AAO criteria.

Requirements

- Pentium based computer.
- Windows 98, 2000, or XP.
- 64MB Memory.
- 25MB Hard drive space.

* Includes 1 year of Upgrades and Support

** Plus reimbursement for actual travel expenses, meals, and lodging.

MI-5000B Series II Microprocessor Audiometer

The MI-5000B Series II Microprocessor Audiometer is one of the lowest-priced field serviceable microprocessor audiometers available today. It administers computerized tests securing valid, reliable data quickly and cost effectively. It is very easy to understand and use, and can be used either alone, or interfaced with an external printer or computer. Interface settings can be changed by the operator. Tones are generated and controlled entirely by digital circuits, allowing output levels of the MI-5000B to be adjusted through secured keyboard entry. The LCD display simultaneously shows all thresholds established for both ears, as well as on-going test conditions. For more information visit <http://www.monitorinstrumentsinc.com/mi5000.html>

Pricing

- **MI5000 Audiometer** \$1995.00
- **Serial Cable** \$42.50

MI-300 Calibration Monitor

The MI-300 Calibration Monitor performs a quick and efficient daily biological calibration check of your audiometer, as required by OSHA. Its lightweight and durable construction will insure years of trouble-free operation. For more information visit <http://www.monitorinstrumentsinc.com/mi300.html>

Pricing

\$465.00
